DURATION

6 months

VALUE

\$5 million+

Monarch was engaged by Konstantinou Group for the Design and Construction of a mixed use development comprising of a two storey gym, childcare centre, office space, and rooftop carpark.

The project consisted of a mixture of building methods with off form suspended slabs and structural steel with light weight cladding to finish off the façade.

Due to the Design element of this project, Monarch were able to make improvements along the way to ensure the highest quality of finish on this project.

The use of the Smart fix cladding system showcased Monarch's attention to detail and continual ability to stay up to date with the latest building innovations.
